PROFILE

Passionate Web Developer currently pursuing B.Tech in Computer Science, with a strong foundation in HTML, CSS, JavaScript, PHP, MySQL, and modern web development practices. Skilled in creating responsive, user-friendly, and optimized websites and web applications. Adept at problem-solving, debugging, and building real-world web solutions through academic projects, freelance practice, and hackathon participation. A fast learner, committed to continuous improvement, and eager to apply creativity and technical expertise in a dynamic web development environment.

KEY PROJECTS & ACHIEVEMENTS

1. Student Management System (Full-Stack Web , App)

Developed a complete web-based Student Management System using **HTML, CSS, PHP, and MySQL**.

- Implemented modules for adding, updating, deleting, and searching student records.
- Added secure login, session management, and database connectivity.
- Designed a clean and responsive UI using CSS and Bootstrap.

2. Online Number Guessing Game (JavaScript Web App)

Created an interactive browser-based number guessing game using HTML, CSS, and JavaScript.

- Added randomized number generation and limited attempts.
- Implemented hints, difficulty levels, and real-time UI updates.
- Built a smooth and engaging user experience through DOM manipulation.

3. Tic-Tac-Toe (Web Hackathon Prototype)

Developed a Tic-Tac-Toe game during a hackathon using **JavaScript and CSS Grid**.

Implemented game logic, win/draw detection, and animated UI feedback.

Designed a clean, responsive layout playable on both mobile and desktop.

Built a complete functional prototype under strict time constraints.

EDUCATION

- **B.Tech in Computer Science & Engineering**

***Narula Institute of Technology*— Aug 2025 – Jul 2028**

(Expected)

- **Diploma in Computer Science & Technology**

Berhampore Polytechnic College — Aug 2022 – Jul 2025 OGPA: 8.1 (≈79%)

- **Higher Secondary (WBCHSE)** — Passed: 2022 Percentage: 85.6%
- **Secondary (WBBSE)** — Passed: 2020 Percentage: 40.45%
